					From	To
No Records Found						
Total relevant work experience in months as on December 31, 2022					27.2	

SECTION 4: CAREER PLANS AND EXTRA-CURRICULAR ACTIVITIES

Briefly outline your professional plans and career objectives in your own words, explaining and substantiating why you want to do this program and what you expect to get from it	IIMK is one of the top B schools in the country and will help me prepare for the challenges of the corporate world. Therefore, with a desire to grow, I aspire to pursue a master's degree in management. During my master's I aim to work on various projects that professors have with them apart from immersing myself in the rigorous curriculum. Post my master's I see myself working as the manager of a reputed firm using my knowledge for practical applications.
Describe your strengths and weaknesses as identified by you.	Consistency is my greatest strength. The relentless pursuit to achieve something that I have aimed for and the patience to pursue it despite all the challenges and failures is one of my strongest points. Apart from that, I like working out of my comfort zone which over the year has helped me to become a stronger person. For me, quick and efficient decision-making and time management are the issues that I consider my weaknesses. I avoid making decisions when not required.
What is your most significant accomplishment so far?	I received a full tuition fee waiver for all four years of my Btech for scoring among the top candidates. The scholarship was based on my GPA and was a reward for my consistent performance in academics. This has been my most significant achievement so far because by procuring it, I was able to lessen the burden of the tuition fee on my parents to a large extent. In addition to it, I was also able to maintain a decent GPA throughout my Btech.
WWhat are your present hobbies?	My hobbies include meditating, writing journals and going on long drives, which I practice to develop a strong and positive mindset. Meditation gives me a chance to introspect and journaling helps me in documenting the learnings that life teaches me. I love watching web series and movies on over-the-top(OTT) platforms. I also started tutoring basic computer science to the underprivileged kids of an NGO which helped me a lot in character building.
Any other information you would like to share	

SECTION 5: UNDER GRADUATE ACADEMIC INSTITUTION

Under Graduate Academic Institution and Discipline	NA
Academic institution	

DECLARATION

I undertake that I have fully read the admission policy and understand that if my withdrawal causes shortfall in the sanctioned intake of the programme, no fees will be refunded and no queries in this regard will be entertained by the institute.
